

Nurtured Heart Approach is:

- A set of core methodologies to work with the most difficult children.
- A powerful way to bring inner wealth to all children.
- A proven, transformative impact on every child, including those with diagnosis (ADHD, Autism, ODD, RAD).
- Helping thousands of families, educators and child advocates to channel a child's intensity in beautiful and constructive ways.
- Successful for parents and teachers in helping children achieve new levels of competency in an enduring way.

Discover Greatness in Kids

Nurtured Heart Approach

The Nurtured Heart Approach was developed by psychologist Howard Glasser to work with the most difficult children by building their inner wealth. Come to learn from NHA certified trainer, Stacie Lancaster, about utilizing this approach in your homes, classrooms, daycares and other settings. This is a FREE training brought to the area by the Adams and Taylor County CHI Behavioral Health Coalition.
